

GET HOME SAFELY

Licensed black taxis can be booked in advance, hailed on the street or picked up from designated taxi ranks.

Only get in a minicab that you have booked via an app, phone or at a minicab office.

If the driver and vehicle do not match your booking confirmation, do not get in the vehicle – it isn't safe.

In case of an emergency dial 999, or report by calling 101.
